

Dear WinTrack,

My name is James Jackson. I live in Miami, Florida. I have been a WinTrack Customer since February 2012. I am writing this letter to let you know that your Delta Diamond system has turned the Florida Lottery into my personal ATM machine. First let me start by saying it's one of the easier systems (with software) I have ever found. Secondly, you must know how to ~~operate~~ ^{OPERATE} the software and that's simple as instructed once the Delta Diamond software has been installed on your computer. You simply click on software, are prompted to enter the last digit (3) of the winning number drawn (453), when this is done hit enter and the software will give you three numbers (465, 359, 763 for example). This works for both midday and evening drawings.

This system also calls for you to change numbers every three drawings. This works but I found that I was coming up with a multitude of numbers, so I had to make an adjustment of the three numbers. I was still able to hit a winner with these numbers, but I also saw that I was coming up with more numbers than I could afford to play. I had to tweak the system in two ways; one how I betted (combo, wheel, or straight box) and two the amount I betted.

In some states you can play a wheel for maximum payout, here in Florida that wheel becomes a combination. For example if I played 376 combo for 50 cent, this play would cost me \$3.00, I win and it pays \$250. This same combo at \$1.00 would me cost \$6.00 and pay \$500 in any combination it comes in (673, 367, 736, etc). I like this play better for the higher payouts in the straight box but here (Florida) the difference being the numbers would have to be exact: 376. If 376 hits for a straight \$1.00 bet you win \$580, that \$500 on the dollar bet and \$80 on the \$1.00 box bet. Now, if that comes any other way (763) you win nothing on the straight bet and \$80

on the \$1.00 box bet, now you see why I like the combination or combo bet better because it gives higher payouts.

If your consumers are having a problem with this software it is not the product it is the individual. So with all that said I recommend that cash 3 players understand this lottery game is an investment and that Delta Diamond's system is: 1) on the numbers system stay with them (play the same numbers) because these numbers will come again and again, 2) pull new numbers when you feel you need to (the system says every three draws) because 95% of these numbers will win, 3) stay within your budget, and 4) play only combination or wheel bets for higher payouts (straight box will only pay higher if numbers come exact).

I don't know what more I can say about this system other than it works. I love it. I am moving on to your Cash -5 maximizer and Play 4 system software for PCs. If there are any customers who are looking for winners they have to remember this is an investment and stay with the system; tweak when necessary.

Here is a list of the numbers I have won ~~with~~^{with} all combo plays from the system with.

* Denotes won two or more times Average payout \$250

| | | | |
|------|------|------|-----|
| 679* | 376 | 459* | 093 |
| 982* | 153* | 419 | 259 |
| 576* | 729* | 356* | 571 |
| 374 | | | |

Here is a look at numbers pulled every draw starting when I received the Delta Diamond system.

| | |
|-------------|-------------------------|
| Feb.6 | .50 combo |
| Midday draw | 3.00 per number |
| 796 | 9.00 |
| 374 | 36.00 four days of play |
| 657 | |

| | |
|--|---|
| Feb. 9 Midday draw 394 679 153 | .50 combo 9.00 36.00 four days of play |
| Feb. 12 Midday draw 351 608 419 | .50 combo |
| Feb. 6 Evening draw 991 778 259 | .50 combo 3.00 per number 9.00 36.00 four days of play |
| Feb. 9 Evening draw 892 576 958 | .50 combo 9.00 36.00 four days of play |
| Feb. 12 Evening draw 585 472 356 | .50 combo |

Now let's take a look at what the Delta Diamond system has given me so far: 1. three numbers sets for midday & evening drawings 2. I only play combo bets so the cost factor here is a little on the expensive side 3. Keep in mind I am winning \$250 every time one or three combinations win 4. After seeing the cost I tweaked the system by not pulling numbers every three draws. I found that you have to let the system work for you by taking a break on every three draws and play the numbers the system gives you. For me the combo or wheel bet is the way to go. This system works but you have to find a cost effective way to play your numbers, as you can see straight box does not work for me.

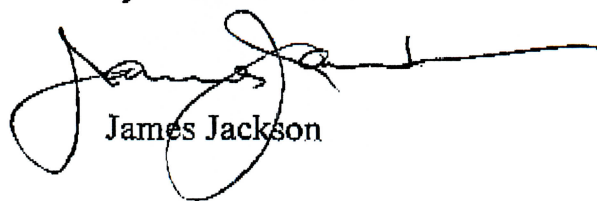

| | |
|--|---|
| Feb. 9 Midday draw 394 679 153 | .50 combo 9.00 36.00 four days of play |
| Feb. 12 Midday draw 351 608 419 | .50 combo |
| Feb. 6 Evening draw 991 778 259 | .50 combo 3.00 per number 9.00 36.00 four days of play |
| Feb. 9 Evening draw 892 576 958 | .50 combo 9.00 36.00 four days of play |
| Feb. 12 Evening draw 585 472 356 | .50 combo |

Now let's take a look at what the Delta Diamond system has given me so far: 1. three numbers sets for midday & evening drawings 2. I only play combo bets so the cost factor here is a little on the expensive side 3. Keep in mind I am winning \$250 every time one or three combinations win 4. After seeing the cost I tweaked the system by not pulling numbers every three draws. I found that you have to let the system work for you by taking a break on every three draws and play the numbers the system gives you. For me the combo or wheel bet is the way to go. This system works but you have to find a cost effective way to play your numbers, as you can see straight box does not work for me.

In conclusion, I did pull numbers for the month of March and finished out the month of February:

| | |
|--|---|
| Feb. 12 Midday 397 673 459 | Feb. 12 Evening 893 479 754 |
| Feb. 27 Midday 194 571 850 | Feb. 27 Evening 093 479 754 |
| March 1 Midday 729 376 558 | March 1 Evening 397 673 459 |
| March 4 Midday 796 374 657 | March 4 Evening 595 472 356 |
| March 7 Midday 194 571 850 | March 7 Evening 792 376 558 |

This was the ^{LAST TIME} ~~time~~ last I pulled any new numbers. I have been winning with the above numbers since then. So this is a look at how the Delta Diamond system has worked for me. Thank you

James Jackson
